To Whom It May Concern

Whitcon Services recently engaged the services of Grant Training & Safety Services to assist us in being pre-registered with the Department of Commerce for construction, fitout and refurbishment projects. Whitcon Services OH&S system, developed by another company, failed to meet the Department of Commerce stringent criteria.

From initial contact through to completion of the amendments to our system, Clive Grant, principal consultant, has been easy to deal with, prompt with his services and it is evident that he has a wealth of knowledge of the Department of Commerce requirements.

Whitcon Services will definitely be utilising and recommending the services of Clive Grant and his team at Grant Training & Safety Services.

Yours sincerely,

Gavin Fraser
Director
